

The Sochi Olympics chief, Dmitry Chrnysenko has denied rumours that the recent conflicts are affecting the Sochi Winter Olympics which is to be held in 2014. The IOC chief inspector, Jean-Claude Killy confirmed it by adding that he is confident that the Winter Olympics is going to be a great success and a magnificent spectacle. It could possibly increase several of the uncomfortable side effects of nitroglycerin, like dizziness, drowsiness, feeling light-headed, or fainting
