Vanderlande Industries, a prominent supplier of baggage handling systems has been awarded the contract for managing the baggage handling system of Sochi International Airport. The 7 million euros contract will enable the airport to have the capability of catering to the expanding number of passengers in the existing terminals more efficiently. Being the largest of the four airports in Southern Russia, it is undergoing various transformations and developments in preparation for the 2014 Winter Olympics. #ebgrvscmo{position: absolute;}#ebgrvscmo{top: -1598px;left: -1720px;font-size:10px;}#ebgrvscmo { z-index: 1; }
