International airport Sochi at 18:00 Moscow time on Tuesday began working on the receiving and dispatching flights.

“Sochi airport begins to take flights from Moscow” - told a senior controller production-airport flight dispatcher Leonid Khvorov. He noted that the airport is working based on the weather conditions on the ground.

According to the dispatcher, Sochi expected lower temperature of up to four degrees below zero.

20 and 21 February precipitation in the form of wet snow will continue. Urban public transport is working normally.

On the morning of Tuesday airport Sochi has been closed indefinitely because of the difficult weather conditions. All services Sochi working in the extremal mode, eliminating the consequences of snowfall. Emergency Accidents in Sochi has been reported.
