“We intend to present at the forum serious infrastructure projects, in particular, we intend to elaborate on what we do in Sochi by 2014, what will we do in Vladivostok (for the APEC summit - IF) and at the Universiade in Kazan in 2013”, - said I. Shchegolev at a meeting of the Presidium of the RF Government on Friday.

The Minister noted that the upcoming forum in Geneva is one of the most respected in the world in the field of information technology. “This is a forum of intelligent and rich” - he said.
