According to him, the Sochi airport has already begun to test operation of the sector “B” in the new terminal.

“Currently, we have already mastered the construction of a new terminal, about 3.8 billion rubles, including over 2 billion rubles own, and about 1.7 billion rubles borrowed funds. However, about 2 billion rubles are expected to master by the end of the year, as well as still about 1 billion over the next two years “, - added S. Likharev.
